

Robust design ensures our systems provide dependable long-term performance and reliability in demanding operating environments for the application of variable product information such as; Product name or code, date, time, shift & batch codes, product count, dimensions, specification, order number, CE marking, as well as industry and company logos.

## TYPICAL APPLICATIONS INCLUDE;

- ✓ Tyres
- ✓ Seats
- ✓ Fabrics
- ✓ Clutch Plates & Covers
- ✓ Brake Hose
- ✓ Components

## FEATURES AND BENEFITS OF THE RANGE INCLUDE;

- Non-contact printing onto inconsistent product shapes and sizes, including textured and abrasive substrates eliminates wear and tear during the marking process
- Excellent throw distance ensures high print quality is achieved when consistent presentation of the product can't be maintained, as well as the flexibility to apply product traceability in areas inaccessible to a manual or contact marking process
- Small & large character printing and the facility to apply single or multiple lines of information provides the flexibility to suit the mark requirements of varying product dimensions
- Extensive range of ink types and colours to suit porous and non-porous substrates, including formulas dedicated to certain industry sectors and applications where pre or post printing manufacturing processes are an issue for other marking technologies and inks
- Operate single or multiple printheads from one controller for applications over one or more production lines
- Compact modular design provides flexibility on installation ensuring easy integration at the production line and off-line marking processes
- Auto-flushing and cleaning
- Systems can operate stand-alone or networked to a PC, PLC or other devices, as well as the facility to store multiple print files
- User friendly & uncomplicated design minimises maintenance requirements ensuring sustainability at site level

With over **40 years industry experience**, and as a leading supplier to operations within harsh production environments we have established long-term relationships based on the reliability and flexibility of our systems, as well as our after sales service and support.

For more information on our range of solutions, an evaluation of your own product marking requirements, print samples or on-site demonstration, please contact one of the team.
